CURRICULUM VITÆ OF ANDREA IACONO

PERSONAL INFORMATION

Name Andrea Iacono

Address Via E. de Amicis 33 - 20123 Milano, Italy

Contacts +39 349 56 46 599 - <u>andrea.iacono@gmail.com</u>

Date of birth 25th May, 1973

Nationality Italian

WORK EXPERIENCE

Dates April 2016 - July 2016

Name of the employer OrientDB – www.orientdb.com

Position held Software Engineer

Main activities and Development and maintenance of the distributed part of OrientDB; design and development of the

responsabilities connectors to "big data" world (Apache Spark).

Dates January 2015 - March 2016

Name of the employer www.disbrain.com
Position held Software Engineer

Main activities and Development of an high performance and scalable web application for project management. Due to a

responsabilities strict NDA, I cannot write anything more. Keywords: graphs, Akka, Play, elasticsearch, MySql.

Dates May 2013 - November 2014

Name of the employer www.poinx.it

Main activities and

responsabilities

Position held Software Engineer

Managed transition from the old site (Cake PHP) to a new architecture based on **Play** framework, with **MongoDB** as the persistence layer and **Hazelcast** used for managing session/cart information. Full test suite (unit, integration and acceptance). Design and implementation of the **REST API** based on **OAuth**

for complete interoperability with the site (that has 2.6 millions subscribed users). Team leader of a

group of 4.

Dates September 2012 - April 2013

Name of the employer www.veespo.com

Position held Software Engineer

Development of the back-end for veespo.com startup: the architecture relies on the open source **Java**Main activities and server Jellyfish that distributes the workload among a network of server. Massive use of **TCP/IP sockets**,

responsabilities multi-threading and synchronization techniques. User data persisted with Apache Cassandra.

Designed and implemented a complete test suite for the framework.

Dates April 2012 - July 2012

Name of the employer Advansys s.r.l. for Allianz

Position held Software Engineer

Main activities and Development of a communications gateway for vehicles' EDRs (Event Data Recorder) for an insurance company. The application is built on **Jboss**, is clustered on several nodes using **Terracotta** and uses

responsabilities

Netty for the TCP/UDP communication. Team leader of a group of 2 people.

Dates July 2011 - March 2012

Name of the employer Nextre Engineering s.r.l.

Position held Software Engineer

Design and development of a online travel site (flight and hotel booking) developed with **Grails**; data are persisted on **MySql** and indexed/searched with Apache **Solr** (**Lucene**). The flight/hotel info are retrieved from different providers (Travelfusion, Sabre and Venere) with a **multi-threaded** approach to

optimize performances and system resources.

Dates January 2011 - June 2011

Name of the employer Digital Magics s.p.a.

Software Engineer Position held

Design and development of a platform of TV participation. Development of an HTTP chat with comet Main activities and technology (streaming technique) using Grizzly/Glassfish, HornetQ and Infinispan. Development of responsabilities the **Java/Swing** application for the participation of users in a TV show. Team leader of a group of 2.

> November 2009 - November 2010 Dates

Name of the employer Loginet s.r.l. Position held Software Engineer

Main activities and Design/development of an automation platform for the loading and shipment of liquid products for refineries based on Java, Wicket, Spring, Hibernate, PostgreSQL, Junit, DbUnit, Selenium and FitNesse. responsabilities

> March 2005 - October 2009 Dates

Name of the employer Humanbit s.r.l.

Main activities and

Position held Partner / CTO / Software Architect / Software Engineer

> - Design and development of a Java Swing application for rapid website development: webpages and modules management with WYSIWYG approach and automatic generation of Java and XSLT source code for creating JavaEE (JSP / XML / XSLT) websites. Development of a class loader for dynamically management of Java/JSP modules.

responsabilities - Technical management and systems management of the projects of the company: SherpaTV, Gay.tv, Nick Live Magazine, Pubbliclick, Il Giornale and others. Team leader of a group of 4 people.

November 1995 - December 2004 Dates

Variuos employers *Name of the employer* Position held Software Developer

- Network traffic analyzer in C (with Pcap) for Italian Minister of Interior Main activities and

- Web applications in Java for Milan Municipality, Kataweb, RAI, Virgin Music, TIM and others responsabilities - Development of different projects in Visual Basic, Visual C++ and Delphi for different customers

Education and training

Name of organization

Dates 1991 - 1999

University of Milan, Italy Name of organization

Title awarded Master's degree in Computer Science Thesis on Artificial Life based on neural networks and genetic algorithms: "The emerging Principal subjects /

of cooperative behaviors in simulations of predator-prey populations". Grade: 100/110 skills covered

Oracle - Prometrics Name of organization

Oracle Certified Professional, Java SE 6 Programmer - Score: 95% - January 2011 Certification awarded

Certification awarded M102 - MongoDB for DBAs - July/September 2013

MongoDB, Inc.

Name of organization Coursera, Udacity, edX Courses successfully Machine Learning - Stanford University - Mar/Jun 2013

> attended Web Intelligence and Big Data - Indian Institute of Technology - Mar/Jun 2013

Intro to Recommender Systems - University of Minnesota - Sep/Dec 2013 Data Analysis - Johns Hopkins University - Oct/Dec 2013

Mining Massive Datasets - Stanford University - Oct/Dec 2014 Advanced Data Structures in Java - University of California SanDiego - Dec/Jan 2016

Functional Programming Principles in Scala - EPFL - Jul 2016

Functional Program Design in Scala - EPFL - Jul 2016

Parallel Programming - EPFL - Jul/Aug 2016

Intro to Hadoop and MapReduce - (Verified certification) - February 2014

Software Testing - Feb/May 2014

Real time analytics with Apache Storm - Dec 2014

Artificial Intelligence CS188.1x - Berkeley University - Feb/Apr 2015 Big data with Apache Spark CS100.1x - Berkeley University - May/Jun 2015

ORACLE

mongoDB

courserd

PERSONAL SKILLS

Language skills

	SPEAKING	READING	WRITING
ITALIAN	First Language		
ENGLISH	Full Proficiency	Full Proficiency	Full Proficiency
SPANISH	Minimun Proficiency	Minimun Proficiency	Minimun Proficiency
PORTUGUESE	Elementary Proficiency	Elementary Proficiency	Elementary Proficiency

Social skills

Capability to work with groups, even in critical contexts: tutor in work camps for NGO "ARCI" in the Occupied Territories of Palestine.

Organization skills

- -Leader of the Java User Group (JUG) Milano from 2011
- -Volunteer from 2004 and President from 2010 to 2013 of the NGO "Insieme nelle Terre di Mezzo" for the organization of cultural events related to social outcasting and immigration

Training skills

Computer science teacher for development aid projects in Mozambique in (2005, Portuguese), in Palestine (2006, English) and in Saharaui refugee camps in Algeria (2006, 2007 and 2008, Spanish).

Technical skills

- System administration:
 - Good knowledge of Linux systems (Debian-based)
 - Bash scripting

– Database:

MySql, MongoDB, elasticsearch, OrientDB, PostgreSQL

Programming languages:

- Java, Scala, Groovy
- Python, PHP, C

Web, frameworks, libraries and tools:

- Java EE (Servlet, JSP)
- Akka, Play framework, Grails, Spring, Hibernate/JPA
- Tomcat, Jetty, JBoss, GlassFish, Netty
- REST, Web Services (SOAP, WSDL), Axis
- HTML, XHTML, CSS, Javascript, jQuery, Ajax
- JUnit, DbUnit, FitNesse, Selenium, Hudson, Jenkins
- Maven, Ant, SBT
- Git, Subversion, Mercurial, CVS
- Swing, LWJGL (OpenGL), WxPython, PyOpenGL
- Apache Hadoop, Apache Storm, Apache Spark
- Solr, Lucene
- Hazelcast
- OpenCV

Programming models:

- OOP, design patterns
- Actor model (Akka)
- MapReduce (Hadoop)
- Pregel (GraphX)

Machine learning:

- Neural networks
- Genetic algorithms
- Clustering
- Linear / Logistic Regression
- Computer Vision

- Agile development methodologies
